

B. Amendments to the Claims

Please cancel claims 2-5 without prejudice or disclaimer.

Kindly add new claims 6-15 as follows:

1-5. (Cancelled)

6. (New) A structure comprising:

an electrical conductor;

an insulator formed on the electrical conductor; and

an anodized layer formed on the insulator,

wherein the insulator has a first group of holes and the anodized layer has a second group of holes, and

wherein holes of the first group is connected with holes of the second group, respectively.

7. (New) The structure according to claim 6, wherein the electrical conductor consists of Si.

8. (New) The structure according to claim 6, wherein the insulator consist of SiO<sub>2</sub>.

9. (New) The structure according to claim 6, wherein the insulator contains a resist.

10. (New) The structure according to claim 6, wherein the holes of the first group extend to the electrical conductor.

11. (New) A structure comprising:

an electrical conductor;

an insulator formed on the electrical conductor; and

an anodized layer formed on the insulator,

wherein the insulator and the anodized layer have columnar parts, and

wherein a bottom of the columnar parts contacts the electrical conductor.

12. (New) The structure according to claim 11, wherein the columnar parts is composed of a magnetic material.

13. (New) The structure according to claim 11, wherein the electrical conductor consists of Si.

14. (New) The structure according to claim 11, wherein the insulator consist of SiO<sub>2</sub>

15. (New) The structure according to claim 11, wherein the insulator contain a resist.
